## COMPOUND OXYGEN.

The stand pipe is going up, and the clang of the hammer on the iron plates as the rivets are being driven is heard a long way.  
The yellow flag yesterday from the Battery Park observatory be tokened local snow or rain. The latter came in light and misty fall. The temperature was too high for snow.

Married on the evening of the 29 inst., at the residence of the bride's father, on South Main Street this city, Rev. W. W. Bays officiating, Mr. W. G. Perry, of Raleigh, to Miss Zoe L. daughter of G. A. and N. M. Mears. May much happiness attend the happy couple through life.

An exchange says: "The tide of immigration from foreign countries to America shows a great increase this year over that of 1885."  
The time was when the rapid influx of foreigners might have been well; the time has come when it is a threatening evil. Our children and grand children—those of foreign birth or descent as well as native Americans—will realize the evils which the present so alarmingly threaten.

Our young friend J. R. Thomas, Esq., of Jackson, is in the city. Mr. Thomas was a candidate before his people last fall for a seat in the legislature, and made a most vigorous, straight, democratic canvass. The Citizen, in publishing the returns, stated that Mr. T. received 42 votes in his county, whereas he received nearly 200. Local issues and a number of candidates so divided people, however, that a republican very good citizen, barring his republicanism—was chosen in the strong democratic county of old Jackson.

**THE SPARTANBURG HERALD SAYS:**  
"The prospect of the continuance of the Narrow Gauge Railroad to Greenville seems assured, and its early completion to the west seems very promising. Susong & Co. have signed a contract, fully secured, to take the work already done, assume all the liabilities, and build and equip it by January 1, 1887."  
The Citizen has already alluded to the above, and has stated on the authority of Col. Rumbough, one of the company, that so soon as the road shall be completed to Greenville it is the purpose of the company to push it on to Asheville. Push it along gentlemen, and let us all help it along.

**Christmas Opening**  
At Law's on South Main at Thursday, Friday and Saturday, Dec. 2nd, 3rd and 4th. All are invited to come and examine and price our goods. The stock is larger than ever before and the Japanese department has been doubled in size. We are ready for business after Dec. 2nd.

**ONE PRICE ONLY.**  
Pellam's tops the climax in beautiful Holiday and Xmas presents, and the low price for which he sells them.  
Blankets and Comforts lower than ever.  
A large variety of pretty Xmas presents.  
Large and well selected stock of Liquors for the holidays, at the White Man's Bar.

## A. C. O. D.

For a pair of shoes came to Levy's yesterday all the way from Alabama. Who would have thought that Levy had made tracks so far away? But he did, and has made his fame abroad as well as at home.  
There is no man in the State better qualified to adorn that noble profession than James H. Merrimon. I have known him ever since he was a child and nothing can be said but he has been faithful to every trust. I think the profession throughout the State will find Judge H. Merrimon will compare with any of our judges from the good old days when such men as Saunders, Battle, Caldwell, Ruffin, Gaston, Manley and Stille adorned the bench.  
THE MEXICAN QUINETTE CLUB  
Of Boston, will appear before an Asheville audience on the night of January 17, 1887.

**THE V BRAND.**  
By unaccountable error we made the firm which dispenses this celebrated Norfolk brand of oysters to read Phillips, White & Co. That there may be no mistake, we correct now. It is Phillips, Henry & Co., Norfolk, among the most useful and widely known of the f. f. v's.

**Pratt & McIntyre** in their fine meat market supplying everything in the way of meats in perfection, of course have created an active demand for everything they furnish. Nothing is more sought after than their excellent sausages. Hand work was too slow to meet the wants of a needy public; so, yesterday they put steam to work to help them out. They have put up a two horse power engine, the work of R. W. Paine & Son of New York. That sets in motion a grinder which rapidly makes mince meat of the choicest members of the unfortunate pucker that falls within its remorseless jaws. The engine is a vertical one, works within a small space, and makes a little noise as a baby's rattle, not a tittle as much as the sewing machines which chatter in every household.

This is the first application of steam to such purposes that we know of in this State and the enterprise is worthy of all commendation.

**A WORTHY EXAMPLE.**  
It is so seldom we see or hear of such acts as the following we transfer it to our columns, hoping that such example will be generally followed. It was written to the Charlotte Observer:  
The employees of McAden mills, McAdenville, N. C., number between nine hundred and one thousand souls, there being not over one hundred and thirty families who are comfortably housed in handsome well lighted cottages. To each and every family Col. J. V. McAden sent, with his compliments, a fine fat turkey on Christmas eve, that the recipients were made glad and happy can be easily imagined. From every household went up prayers, thanks and God's blessing for his great good heart, made every home on his estate happy.

Mr. B. M. Luther, mail agent on the W. N. C. Rail Road, between this city and Jarratt's, has been promoted to a class position, with an increase of salary, in the U. S. mail service, and assigned to the route between Salisbury, N. C., and Morristown, Tenn.

A California tailor tried to run away from his wife and bearded a sailing vessel for Honolulu. His wife went by steamer, got there first, met him when he landed, and escorted the unhappy man back home.

**General Grant**, on his return to this country, is said to have been severely afflicted with a cough, contracted while crossing the ocean, and which had stubbornly refused to yield to any treatment. A friend procured for him a bottle of S. N. P. K. by its use he was in a few hours entirely relieved. He recommended to his friend: "Men look up to me as a great soldier, but this bottle of S. N. P. K. is greater than I. My calling has been to destroy men's lives, but this medicine is a victorious savior of men. It will never be without it again."  
Go to Morgan's for "1887" Diaries at once while he has a full stock, you can get any kind you wish.  
Schultz's Milwaukee Pilsener Beer in jars and quarts in the dozen or barrel, at Frank Loughran's Wine and Liquor store.  
S. N. P. K. Jersey Cloth always sold at 75 cents, now selling at 65 cents.  
Handsome useful and ornamental Xmas presents, at WHITLOCK'S.  
Go to Whitlock's to buy your Xmas presents.  
Cigars by the single box, at wholesale prices, at the White Man's Bar. (Jan 1)  
S. N. P. K. and J. H. Handkerchiefs from 50 cents.  
Three days to Xmas. Go to Pellam's and spend your money. Police attention is directed to the fact that the lowest and closest figures in the city. Call and see for yourself. (Jan 1)

Fine Jelly Wines at the White Man's Bar. (Jan 1)

## OUR TRANSYLVANIA LETTER.

**CHRISTMAS—THE SMALL BOY—BUSINESS CHANGES—RAILROAD MATTERS.**  
BREVARD, N. C., Dec. 27, 1886.  
Messrs. Editors—For sometime past we have foreborne trespassing on the Citizen, as we well knew that you had many other matters of a public nature claiming your attention. The election has come and gone, in which Transylvania did her full duty. The "big snow of 1886" has come and gone, of which we had our share. Christmas has come and is almost gone, and we sincerely hope the pestiferous fire-cracker is almost gone with it—not that we would rob the "small boy" of to-day, or any of the pleasure which we once enjoyed, but in our more mature years we dislike the things and wonder why we ever did like them—jump we must, when the abominable thing is so near, and we are almost always obliged to ourselves to "blow out" the Christmas tree in the Court House Saturday night was a complete success. Designed more especially for the children of the Methodist church, but open to all, who felt disposed to contribute to the enjoyment of the occasion, it embraced almost the entire village. The recitations and music by the Sunday School were very pleasant part of the programme. We turn from the consideration of such subjects, they fall us from the present to the "long ago."  
The character of the business houses of our town has changed some. Mr. J. O. Faxon, ex-county treasurer, is associated with C. C. Patton & Co., Mr. George C. Nell is with P. S. King, Messrs. Young and Picklesheimer have succeeded Mr. L. Shippman & Co., Messrs. Tinsley and Lamm occupy the house belonging to T. H. Hampton. Mr. W. P. Whitman has taken a partner for real or "woe" till death us do part," see Miss Floyd, of Newberry, N. C. Mr. C. E. Farmer has transferred the bird "out of our oven" to the former, welcomed the hungry traveler to the Eagle Hotel in Asheville, to a lofty perch in front of the Eagle Drug Store. I do not think that any little town in the West could boast of business houses whose financial status is firmer than that of those in this town. But, dear Citizen, tell us, notwithstanding their financial responsibility, how can they, or we, or any of us, or any body else, succeed, when we have to drag our wagons up the Southern slope of the hills from here to your city, through mud "hub-deep," and skate at break-neck speed over the ice, and carry a heavy load to get our goods here?  
The day for moralizing on railroads has past. The Great West was made great by railroads. The South is here in our immediate section, we have seen towns, as if by magic, spring forth into cities; unpretentious hamlets become centers of business, sparse settlements become thickly populated. The "log-cabin, more potent, than comfortable, supplied by the neat cottage"—all this too in sections not half so fertile as ours. Back, industry and business sagacity can transform a barren waste into a garden. But, inefficiency, supine indifference, can make even the fertile valleys of the French Broad and Mills Rivers unfruitful to enterprising stirring men. God gave us, with lavish hands, many and varied natural attractions. He gave us an excellent road-way. He made us intelligent beings, but did not make us great by railroads. Even your old weapons, and cast iron narrow Transylvania, Mills River and Avery Creek, too sleepless, awake and see themselves—arouse from your lethargic slumber, and realize that this is your golden opportunity. Highlands is ready to help you—Asheville is ready—railroads joining in this direction are ready to help, if you will only show a disposition to help yourselves. Call a meeting of the good feeling citizens, at some central place, consult together, secure your charter at this session of the legislature. Face yourself in condition to cooperate with the first company that will offer to retire your old weapons, and cast iron narrow gauge road is within your reach, if not more, for the present it would be sufficient, if development demands something more it will come. Organize, appoint a committee, working committee to correspond with and visit Messrs. Susong & Co., the Chester and Lenoir Narrow Gauge, & gather facts, cost of construction, grading, capacity, the expense of equipping, running and maintaining such a road. I am fully satisfied that you will find such a road, within your reach. Make the effort and the very resolution of equipping, running and maintaining such a road. Do not wait for a great trunk line from Birmingham to New York to pass by your door. It may never come. Take hold of what is now within your reach and it comes at right angles, and if you are independent. Do not you forget that your road would run parallel with the great line run for 30 miles, parallel with the gold vein, of Henderson and Transylvania, that it would run at the base of mountains of the finest iron ore on Bolton and at Dever's—I speak advisedly, iron ore equal to that of Cranberry or Birmingham and that too in inexhaustible quantities. Not only invite, but bring men here and show them that these things are so, show them our numbers, our fine lands, cattle, ore, and scenery that we so miserably have neglected. Men will not pay 30 cents per mile to be pulled through the mud to this section when they can visit others at 3 cents per mile in a palace car. Bring them here. It will infuse new life in us all. Rip Van Winkle's little nap is not to be compared to your sleep—wake up. Who will be the first to give practical shape to these suggestions?  
Bucklen's Arnica Salve  
The best Salve in the world for cuts, bruises, sores, ulcers, chapped hands, corns, and all skin eruptions, and positively cures piles, or no pay required. It is manufactured at my residence, satisfaction, or money refunded. Price 25 cents per box. For sale by H. E. Lyons.

**THE MENDELSSOHN QUINETTE CLUB** of Boston, will appear before an Asheville audience on the night of January 17, 1887.  
**PROMINENT ARRIVAL.**  
Private dispatches announce the fact that Jesse R. Grant, son of Gen. U. S. Grant, with his family, will arrive at the Battery Park to-night.

**A FOREIGN FRUIT.**  
Hop Wo, the Chinese laundry-man, has just received from the Celestial regions a box of good things, among others a supply of a strange fruit, characteristic of that contradictory country. Externally it has the appearance of a rough nut about the size of a half grown yam or ball which it much resembles. The shell is easily broken and discloses a dark colored gummy fruit, functionally sweet, with a distinct ginger flavor. This sprouts a hard kidney shaped seed. The same we cannot learn, as Hop Wo is not expert even in pigeon English.

**RELIGIOUS NOTICE.**  
Rev. Dr. Carroll will preach next Sunday at 11 a. m. and at 3 p. m. in the Northern Methodist church building on Bailey street, near the Buncombe Warehouse. A lease of this house having been effected for the purpose, these services may be expected regularly from the first of the New Year. All persons interested in the organization of a Sunday School at that point are requested to be present next Sunday morning at 10 o'clock.

**CHRISTMAS MISDEATS.**  
The returns are coming in from the State, and present a distressing, and somewhat formidable array.  
The Wilmington Star tells of the death of a boy at Magnolia, a lad of 15, who, with other boys, was out gunning. In climbing a fence his gun was discharged, the lead entering beneath his chin and lodging in the head. Death was instantaneous.

Mr. Hall, a Northern man, committed suicide at Shelby by shooting himself through the head.  
A fire in Statesville, caused by fire crackers, destroyed two frame houses, one of which was filled with leaf tobacco.  
Sam Pearson, a resident of Burke county, who some years ago was tried for a very sensational murder, convicted of manslaughter, sentenced to the penitentiary for ten years and afterwards pardoned, was killed on Saturday by Deputy Sheriff Luther Ward and posse, while retreating from some other offense.

Thomas Brinkley shot and killed a neighboring citizen of Newton on Christmas day.  
No doubt our weekly exchanges will add largely to the list.

**Accidents of Gen. Grant.**  
General Grant, on his return to this country, is said to have been severely afflicted with a cough, contracted while crossing the ocean, and which had stubbornly refused to yield to any treatment. Susong & Co., the Chester and Lenoir Narrow Gauge, & gather facts, cost of construction, grading, capacity, the expense of equipping, running and maintaining such a road. I am fully satisfied that you will find such a road, within your reach. Make the effort and the very resolution of equipping, running and maintaining such a road. Do not wait for a great trunk line from Birmingham to New York to pass by your door. It may never come. Take hold of what is now within your reach and it comes at right angles, and if you are independent. Do not you forget that your road would run parallel with the great line run for 30 miles, parallel with the gold vein, of Henderson and Transylvania, that it would run at the base of mountains of the finest iron ore on Bolton and at Dever's—I speak advisedly, iron ore equal to that of Cranberry or Birmingham and that too in inexhaustible quantities. Not only invite, but bring men here and show them that these things are so, show them our numbers, our fine lands, cattle, ore, and scenery that we so miserably have neglected. Men will not pay 30 cents per mile to be pulled through the mud to this section when they can visit others at 3 cents per mile in a palace car. Bring them here. It will infuse new life in us all. Rip Van Winkle's little nap is not to be compared to your sleep—wake up. Who will be the first to give practical shape to these suggestions?

**THE MENDELSSOHN QUINETTE CLUB** of Boston, will appear before an Asheville audience on the night of January 17, 1887.  
**PROMINENT ARRIVAL.**  
Private dispatches announce the fact that Jesse R. Grant, son of Gen. U. S. Grant, with his family, will arrive at the Battery Park to-night.

**A FOREIGN FRUIT.**  
Hop Wo, the Chinese laundry-man, has just received from the Celestial regions a box of good things, among others a supply of a strange fruit, characteristic of that contradictory country. Externally it has the appearance of a rough nut about the size of a half grown yam or ball which it much resembles. The shell is easily broken and discloses a dark colored gummy fruit, functionally sweet, with a distinct ginger flavor. This sprouts a hard kidney shaped seed. The same we cannot learn, as Hop Wo is not expert even in pigeon English.

**RELIGIOUS NOTICE.**  
Rev. Dr. Carroll will preach next Sunday at 11 a. m. and at 3 p. m. in the Northern Methodist church building on Bailey street, near the Buncombe Warehouse. A lease of this house having been effected for the purpose, these services may be expected regularly from the first of the New Year. All persons interested in the organization of a Sunday School at that point are requested to be present next Sunday morning at 10 o'clock.

**CHRISTMAS MISDEATS.**  
The returns are coming in from the State, and present a distressing, and somewhat formidable array.  
The Wilmington Star tells of the death of a boy at Magnolia, a lad of 15, who, with other boys, was out gunning. In climbing a fence his gun was discharged, the lead entering beneath his chin and lodging in the head. Death was instantaneous.

Mr. Hall, a Northern man, committed suicide at Shelby by shooting himself through the head.  
A fire in Statesville, caused by fire crackers, destroyed two frame houses, one of which was filled with leaf tobacco.  
Sam Pearson, a resident of Burke county, who some years ago was tried for a very sensational murder, convicted of manslaughter, sentenced to the penitentiary for ten years and afterwards pardoned, was killed on Saturday by Deputy Sheriff Luther Ward and posse, while retreating from some other offense.

Thomas Brinkley shot and killed a neighboring citizen of Newton on Christmas day.  
No doubt our weekly exchanges will add largely to the list.

**Accidents of Gen. Grant.**  
General Grant, on his return to this country, is said to have been severely afflicted with a cough, contracted while crossing the ocean, and which had stubbornly refused to yield to any treatment. A friend procured for him a bottle of S. N. P. K. by its use he was in a few hours entirely relieved. He recommended to his friend: "Men look up to me as a great soldier, but this bottle of S. N. P. K. is greater than I. My calling has been to destroy men's lives, but this medicine is a victorious savior of men. It will never be without it again."
